Professional Summary

Electronics and Communication Engineering graduate with knowledge of Python programming, Object Oriented Programming, SQL, data structures and basic Machine Learning concepts. Familiar with data preprocessing, NumPy, image processing, model evaluation and basic REST API concepts. Completed academic work involving image enhancement, wavelet based fusion and quantitative evaluation using PSNR, SSIM, Entropy and UIQM. Developed Python projects including an E Commerce application and Tic Tac Toe game. Seeking a Python AI Apprentice opportunity to apply programming fundamentals and develop practical skills in Artificial Intelligence, Machine Learning and automation.

Education

Bachelor of Technology in Electronics and Communication Engineering 2026
Rajeev Gandhi Memorial College of Engineering and Technology, Nandyal **CGPA: 7.9/10**

Diploma in Electronics and Communication Engineering 2023
E.S.C. Government Polytechnic, Nandyal **Aggregate: 85%**

Secondary School Certificate, Class 10 2020
Ushodaya High School, Nandyal **Aggregate: 94%**

Technical Skills

- **Programming:** Python, SQL
- **Python Concepts:** OOP, Functions, Conditions, Loops, Lists, Strings, Basic Data Handling
- **Data and ML:** NumPy, Data Preprocessing Basics, Machine Learning Fundamentals, Model Evaluation Basics
- **AI and Computer Vision:** Image Processing, Feature Extraction Basics, Wavelet Transform, CNN Fundamentals
- **Web and APIs:** HTML, CSS, REST API Concepts
- **Databases:** SQL, MySQL, SQLite Basics
- **Tools:** Git, GitHub, VS Code, MATLAB, Microsoft Excel
- **CS Fundamentals:** Data Structures Basics, OOP, Computer Networks, Operating Systems

Training

Tap Academy 2026

Completed training in Python programming and programming fundamentals.
Practiced problem solving using conditions, loops, lists, strings and basic data handling.
Learned fundamental concepts of Object Oriented Programming and SQL.

Projects

E Commerce Application | *Python, HTML, CSS, SQL*
Developed a basic E Commerce application to manage product information and user interactions.
Implemented Python based application logic using programming fundamentals and Object Oriented Programming concepts.
Used SQL for storing and retrieving application data.

Tic Tac Toe Game | *Python*
Developed a two player Tic Tac Toe game using Python programming fundamentals.
Implemented game logic using conditions, loops, lists and user input.
Added win and draw conditions to determine the game result.

Visual Quality Enhancement for Underwater Images Using Wavelet Based Perception Fusion | *MATLAB*
Developed an image enhancement system using Discrete Wavelet Transform and perception based image fusion.
Applied image preprocessing and multi scale decomposition to improve underwater image quality.
Evaluated enhanced images using PSNR, SSIM, Entropy and UIQM metrics.

Certifications

- Internet of Things, NPTEL, 2025
- Enhancing Soft Skills and Personality, NPTEL, 2025

Relevant Coursework

- Python Programming
- Object Oriented Programming
- Data Structures
- Database Management Systems
- Machine Learning Fundamentals
- Digital Electronics
